DXOMARK

You are cordially invited to visit DXOMARK for a free tour of our image-quality labs!

DXOMARK has been testing photo and video quality since 2003 for cameras in smartphones, DSLRs, surveillance, automotive, and other industries. We would like to take the opportunity of CIC 31 in Paris to welcome you to our headquarters and show you our modern and advanced image-testing laboratories, and so much more. After the tour, join other attendees for some French cheese, charcuterie, and wine.

Wednesday, November 15 • 18:00 – 21:00
24-26 Quai Alphonse le Gallo, 92100 Boulogne-Billancourt

Please reserve your place today. Spaces are limited for the tours.
